

Charter of the OSCAR network partners

COMMITMENT OF THE LEADERSHIP TEAM

The leadership team of the *Observatoire national du déploiement des cépages résistants* (Observatory for the deployment of disease resistant varieties) undertakes to:

- Compile, store and process data ensuring that they remain confidential and anonymous when distributed in publications;
- Support, encourage and facilitate exchanges between vineyard managers/winegrowers, monitoring partners and researchers to make OSCAR a shared system;
- Produce a national promotional and demonstration programme to circulate the results obtained within and beyond the network.

COMMITMENT OF THE MONITORING MANAGER

As a partner in the Observatory for the deployment of disease resistant varieties (OSCAR), the Monitoring Manager undertakes to:

- Observe and monitor plots involved in the Observatory;
- Monitor the methodological guidelines and protocols defined by the leadership team;
- Produce quality data (including iconographs) and share them with the OSCAR network.

COMMITMENT OF THE OPERATIONS MANAGER

As a partner in the Observatory for the deployment of disease resistant varieties (OSCAR), the Operations Manager undertakes to:

- Share the technical operating information deemed useful by the Steering Committee and allow free access to the plot in question to anyone involved in monitoring the Observatory;
- Authorise the promotion of data that will be recorded (no named data will be circulated).
